Research Experiences for Undergraduates

The NSF-funded Natural Hazards Engineering Research Infrastructure offers a Research Experiences for Undergraduates (REU) program. Land a research opportunity at one of 11 multi-hazard engineering or interdisciplinary sites during a 10-week summer research program. Study natural hazards through earthquake, wind, tsunami, coastal engineering, data management, cyberinfrastructure, post-disaster reconnaissance, simulation, or social science research at a NHERI facility.

• WORK with faculty and graduate students
• WRITE a professional, publishable research paper
• NETWORK with peers in research group meetings
• LEARN about grad school and career development
• BUILD relationships through mentoring
• GAIN hands-on research experience

REU Block 1: June 5 - Aug. 11, 2023
• Florida International University
• Lehigh University
• University of California, Berkeley
• University of Colorado Boulder
• University of Florida
• University of Texas, Austin
• Mobile Shakers program
• Cyberinfrastructure

REU Block 2: June 20 - Aug. 24, 2023
• Oregon State University
• University of California, Davis
• University of California, San Diego
• University of Washington
